

DuPont Now
**Innovations
to thrive**

DUPONT™

A close-up shot of a young woman with long brown hair in a braid, smiling and looking down at a smartphone. She is wearing a blue and white patterned jacket with a purple strap over her shoulder. The background is a blurred city street at night with red and blue lights.

**We empower the
world with essential
innovations to thrive...**

**...by discovering
and delivering
results that matter.**

Our journey to three: creating world leading companies

2017

→
We brought together the complementary, innovative portfolios and pipelines of Dow and DuPont

2019

→
With the intent to create three strong, independent companies

April

Materials Science

Agriculture

June

Specialty Products

From smarter homes to more efficient cars, from better ways of digitally connecting to new tools that enable active and healthy lifestyles...in all these areas and many more, we're working with customers to transform their ideas into real world answers that help humanity thrive.

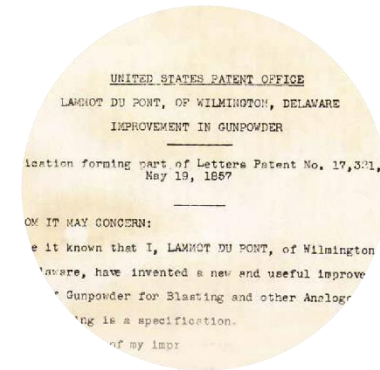

Centuries of progress

The explosives era

E. I. du Pont de Nemours and Company was founded on the banks of the Brandywine River, in Wilmington, Delaware

1802

Centuries of progress

Chemistry and the polymer revolution

We established our research laboratory, the Experimental Station, the birthplace of some of our biggest innovations — including nylon, Tyvek®, Kevlar® and Sorona® polymer

1902

Welcome to a new DuPont

Specialized solutions

Essential innovations from highly engineered products and naturally sourced ingredients to shape industries and everyday life

2019

Transforming everyday lives in 70+ countries

32,000+

Colleagues

~170

Manufacturing Sites

10+

Global R&D Centers

Driving innovation for a diverse set of industries

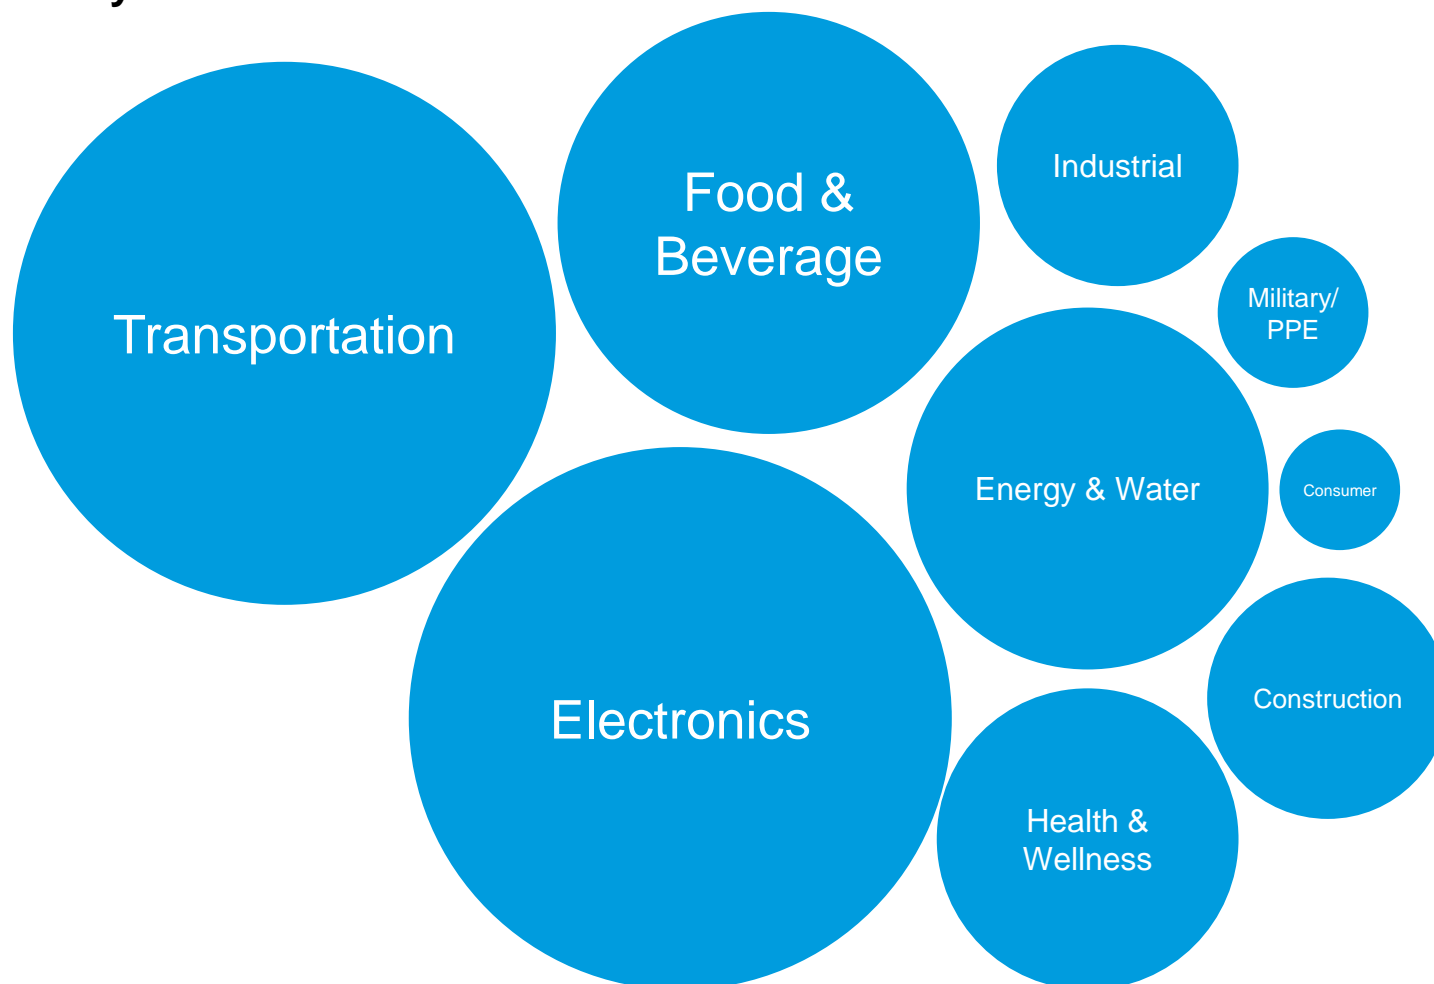

\$22.6B

2018 net sales

By business segment

- ~\$6.8B Nutrition & Biosciences
- ~\$5.6B Transportation & Advanced Polymers
- ~\$5.5B Safety & Construction
- ~\$4.7B Electronics & Imaging

By end market

Innovating side-by-side.

From R&D investment to our culture of partnership, our capabilities increase our customers' business impact and speed to market.

	Midland, MI

The best and brightest.

When our people thrive, so does our science. That's why we work to create an environment with industry expertise, best-in-class resources, and a commitment to equality and inclusion.

Recent awards and recognitions:

Our core values

**Safety &
health**

**Respect for
people**

**Highest ethical
behavior**

**Protect the
planet**

Helping people thrive

We bring insights and innovations that address the trends that are shaping our world today, and putting us on a path towards sustainable development.

**Connectivity
and Mobility**

**Healthy
Living**

**Urbanization
& Safety**

**Environmental
Protection**

Connectivity and Mobility

Enabling innovations for:

- › Faster, more integrated devices
- › Smart materials and cities
- › Electric and autonomous vehicles

95%

of today's smart devices
are enabled by DuPont's
specialized materials

Healthy Living

Enabling innovations for:

- › Personalized nutrition, nutraceuticals
- › Active pharmaceutical delivery
- › Natural/clean label foods and products
- › Health and fitness monitoring

1in3

probiotic supplements
contain DuPont Nutrition &
Health probiotics

Urbanization & Safety

Enabling innovations for:

- › Personal protective equipment
- › Infection and disease protection
- › Thermal and electrical protection
- › Clean processes

>80%

of hip and knee implants
in the U.S and Europe
are packaged with Tyvek®
medical packaging

Environmental Protection

Enabling innovations for:

- › Clean water
- › Circular economy and resource management
- › Energy efficiency and light-weighting

25 million gallons of water

are processed every minute
globally through our technologies

Investing in transformative technologies

Bringing our customers' brilliant ideas to life by focusing on today's most complex challenges

Electronics convergence

- › Increasing power density and frequency
- › Advanced packaging for high performance devices
- › Emerging technologies for miniaturization and speed

Biotechnology acceleration

- › Next generation genomics and metabolomics
- › Precision gene editing
- › Industrial-scale bioprocessing and microbial science

Digital advancements

- › Big data and predictive analytics
- › Artificial intelligence and machine learning
- › Smart technologies and connected devices

Our innovations answer the call.

- › Ingredients that enable affordable, safe and nutritious food
- › Ingredients that reduce food waste

- › Healthy food & clean label ingredients
- › Probiotics and prebiotic that support human microbiome
- › Active pharma delivery
- › Medical packaging and materials for healthcare and medical products

- › Clean water solutions
- › Clean process technologies
- › Enzymatic solutions for wastewater treatment

- › Solar / photovoltaic solutions
- › Clean process technologies
- › Biofuel processing solutions

- › Energy efficient construction
- › Semiconductor fab materials
- › 5G wireless & advanced packaging

- › Biobased materials
- › Clean process technologies
- › Ingredients that support sustainable food production and reduce food waste

- › Energy efficient construction
- › Automotive electrification
- › Clean process technologies
- › Light-weighting & energy efficiency
- › Biobased materials
- › Solar / photovoltaic solutions
- › Animal nutrition and plant based proteins

A full-page photograph of two hikers on a grassy hill. In the foreground, a woman with a purple backpack and a patterned headband is walking towards the right. In the background, another person with a red backpack is walking away. The landscape is a vast, rolling green hillside under a clear blue sky.

**Together, we're turning
possibilities into real world
answers that help humanity thrive**
